

## **HighPoint Solutions Moves Headquarters to Support Continued Growth**

February 22, 2012, East Norriton, PA. - HighPoint Solutions LLC, a premier provider of specialized IT solutions for the life sciences and healthcare industries, announced it has moved its headquarters to East Norriton. The new location is at 301 E. Germantown Pike, just off I-476 and I-276.

HighPoint Solutions relocated to accommodate the continued, rapid increase in demand for its services. Employing over 400 people today, the company has tripled in revenue and employee headcount over the past five years and has plans to expand by another 20% this year.

The new office contains over 14,000 sq. ft. of space, supporting the company's 225 Philadelphia area consultants and will allow for the expansion of its Business Solutions Center by approximately 50%. The Business Solutions Center provides application support, business process outsourcing, and hosting services to 49 clients, including 12 pharmaceutical companies, on over 240 applications. The new location will maintain the company's focus on the life sciences and healthcare industries and will enable HighPoint to provide increased service to its clients, expand its client base, and provide convenient access for the firm's global customers.

### About HighPoint Solutions

HighPoint Solutions solves the toughest challenges facing companies in the highly regulated life sciences and healthcare industries by providing our clients with practical IT strategies and solution implementations and giving them direct access to the people and technology that get things done. Since 2000, HighPoint's team of consultants has provided business consulting and technology solutions that continue to deliver business value and competitive advantage to more than 140 clients nationwide.

HighPoint Solutions is headquartered in East Norriton, PA with additional offices in New York, New Jersey, Boston, Chicago, and California. For more information, visit [www.highpoint-solutions.com](http://www.highpoint-solutions.com).
